Computer Science Researcher

PROJECT

PintosOS

Cookeville, TN | 08/2025 | 01/2026

- Engineered and implemented thread lifecycle management functions, encompassing creation, scheduling, and termination.
- Integrated new features and maintained existing components within a substantial operating system codebase.
- Utilized the Bochs emulator for comprehensive system debugging and functionality validation.

SKILLS

Skills

- Developed software solutions in C/C++.
- Implemented High-Performance Computing (HPC) solutions using MPI, Caliper, and Structural Systems Toolkit.
- Engineered hardware and circuit designs, utilizing ESP32 and EasyEDA.

EXPERIENCE

Teaching Assistant

Tennessee Technological University | Cookeville, TN | 02/2022 | 05/2022

- Instructed two laboratory sections.
- Managed grading and administrative tasks, consistently providing timely feedback to students.

EDUCATION

BS Computer Science

Tennessee Technological University | Cookeville, TN | 01/10/2023 | 05/10/2026

- Achieved a 3.97 GPA.
- Completed rigorous coursework in Parallel Programming and Operating Systems.
